The VCU Health System

- **VCU Health System**, the clinical delivery component of the VCU Medical Center,
 - Only academic medical center in Central Virginia
 - Referral center for the state and Mid-Atlantic
 - 31,000 admissions and more than 500,000 outpatient visits each year
- **MCV Hospitals**
 - Teaching hospital of the VCU Health System
 - 779 licensed beds
 - 20% share of the Richmond inpatient market
 - 80,000 patients are treated annually in the hospital's emergency department, which is the region's only Level I Trauma Center
- **MCV Physicians**
 - 600-physician, faculty group practice
- **Virginia Premier Health Plan**
 - 110,000 member Medicaid HMO

VCU Health System Organizational Structure

6/07

VCU Health System Operating Goals

2008-2009 Strategic Operating Goals

The Strategic Operating Goals provide broad direction and coordination among the clinical, administrative and financial operations of the various component organizations of the VCU Health System.

- ❑ **Creating a Culture of Excellence** – highlighted by establishing a culture of safety with a major focus on improving the compliance with 12 National Patient Safety Goals.
- ❑ **Commitment to Service** – highlighted by ensuring adequate and timely access to all services at the VCU Health System to include physician/clinic appointments, transfers and referrals from outlying providers, timely specialty consultations within the Health System, and optimal scheduling/availability of physician utilized hospital based services like operating rooms and special procedure areas.
- ❑ **Transformation Through Information Technology** – highlighted by the use of information technology to help in meeting the goals of enhancing the environment for patient care by providing clinicians with the patient care information needed, in a timely manner, to deliver excellent care.

VCU Health System Operating Goals

2008-2009 Strategic Operating Goals (continued)

The Strategic Operating Goals provide broad direction and coordination among the clinical, administrative and financial operations of the various component organizations of the VCU Health System.

- ❑ **Financial Performance** – highlighted by continued performance that meets or exceeds the VCUHS Consolidated 5-Year Projection (2007-2012), which is necessary to meet institutional programmatic and capital revitalization goals.
- ❑ **Workforce** – highlighted by ensuring that the VCUHS continues to retain and recruit the highly trained and capable workforce, which has been manifested by recent gains in recruitment, retention, staff satisfaction, and recognition as a Magnet Health System, Richmond Employer of Choice (3 years), and Top 100 for Working Mothers (3 years).
- ❑ **Strategic Innovations** – highlighted by goals to implement programs to meet regional outreach objectives and strategic recruitments.
- ❑ **Community Partnerships** – highlighted by goals to enhance relationships with community providers, governmental bodies, civic organizations, and the public at large.
