

RICHMOND VA MEDICAL CENTER COMPUTERIZED PATIENT RECORD SYSTEM (CPRS) TRAINING

The VA Medical Center in Richmond, Virginia, requires all incoming housestaff to go through computer training PRIOR to receiving their computer access codes. This policy applies to all housestaff who have rotations through the VA Medical Center. (That would be everyone except Pathology fellows, Pediatric residents/fellows, Obstetrics/Gynecology residents, Oral/Maxillofacial residents, Child Psychiatry residents, and Vascular Interventional Radiology fellows). We will have many scheduled training sessions and will work to accommodate your schedule.

The training takes approximately 4 hours to complete. If you plan to be in Richmond during April, May, or June 2011 prior to orientation, please call or email our computer trainer to schedule your appointment. Please identify yourself as an incoming house-officer.

Name: Lorrie Swartley (804) 675-5248
Email: lorrie.swartley@va.gov

Those previously trained at this medical center as medical students are still required to attend housestaff CPRS training.

We will assign you to scheduled training classes at orientation.

For any questions about this policy or any other VA issues, please call the Associate Chief of Staff for Education at 804-675-5249 or 804-675-6247.
